

TIME IS RUNNING OUT FOR THE FLUORESCENT LAMP

The UK Government has announced its schedule for the phasing-out of fluorescent lamps containing mercury. This follows a similar plan issued by the EU and arises from changes to the Restriction of Hazardous Substances in Electrical and Electronic Equipment Directive (RoHS).

In the UK, the phased changes will occur between 1st September 2023 and 1st February 2024. After these dates, all T5, T8 and compact fluorescent lamps will be banned from sale, however existing stocks from suppliers of these lamps will still be available until they are exhausted. With less than twelve months to go, now is the time to plan your lighting future.

Lamp Type	EU Phase-out date (legislation)	GB Phase-out date (legislation)
CFLni Non-Integrated	24 February 2023 (RoHS)	1 February 2024 (RoHS)
CFLni Long Life (<30W, ≥ 20,000h)	24 August 2023 (RoHS)	1 February 2024 (RoHS)
T5	24 August 2023 (RoHS)	1 February 2024 (RoHS)
T8 (2', 4' & 5')	24 August 2023 (RoHS)	1 February 2024 (RoHS)
T8 (other lengths)	24 August 2023 (RoHS)	1 February 2024 (RoHS)
T5/T8 Long-life (≥25,000h)	24 February 2023 (RoHS)	1 February 2024 (RoHS)

HOW CAN THORLUX HELP?

Thorlux Lighting manufactures a comprehensive range of high-performance, energy-efficient LED luminaires for a wide variety of applications. When combined with the award-winning SmartScan wireless lighting management system, Thorlux SmartScan luminaires can deliver energy savings exceeding 70% compared with conventional technology.

FUNDING OPTIONS

Thorlux offers flexible funding solutions from Mitsubishi HC Capital UK PLC, a leading financial services company with over four decades of experience providing innovative finance solutions. With nearly 1.3 million customers across five business divisions, it is one of the UK's leading financial service companies.

Thorlux Lighting has a Partnership Agreement with Mitsubishi HC Capital UK PLC, which allows for several flexible funding models. These range from simple payment plans to more innovative installation and maintenance solutions.

WHY BUY FROM THORLUX?

Thorlux designs and manufactures a comprehensive range of professional lighting and control systems, including energy-efficient solutions, at its sophisticated facilities in Redditch, Worcestershire. When choosing Thorlux for architectural, commercial, floodlighting, industrial, and hazardous area applications, you can be confident of receiving:

- Professional, competent advice from a long-established UK company
- A choice of lighting and control systems subject to stringent quality control (BS EN ISO 9001:2015)
- Excellent customer service and a 5-year warranty

For over 80 years, Thorlux has manufactured increasingly sophisticated luminaires in the UK. Huge investments in design and testing facilities coupled with a focus on high-technology products have put Thorlux at the forefront of its market sector. Thorlux luminaires are subject to stringent quality controls, as demonstrated by the company's BS EN ISO 9001:2015 (quality management systems) certification. Additionally, certification to BS EN ISO 14001:2015 (environmental management systems) assures that Thorlux manufactures its products in the most environmentally-friendly manner.
