SmartScan Switch

Wireless, manual switching of SmartScan luminaires

The ultra-simple SmartScan Switch wall plate is an impact-resistant, wall-mountable manual scene control for SmartScan luminaires.

Two touch buttons provide on (eco) and off functionality. The SmartScan switch has options to be powered from the mains (230 V) or from batteries, as required. Programming is done via a handheld SmartScan controller (available separately).

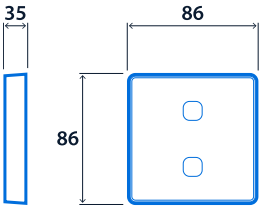

- 2 buttons providing On (Eco) and Off
- Mains (230 V) or battery powered versions available
- Communicates wirelessly with SmartScan luminaires
- Mains versions have additional wireless connectivity allowing control from the SmartScan App (iOS and Android)
- Requires a 35 mm deep single-gang back box (mains version only)
- Battery version is supplied complete with batteries and self-adhesive tape and can be mounted directly to the wall
- Multiple touch plates can be used to provide multi-point control
- Programmable using the SmartScan programmer
